Drone maintenance log

Aircraft summary. Keep this sheet with the aircraft service-entry pages.

INTERNAL AIRCRAFT / ASSET NAME

MANUFACTURER / MODEL

AIRCRAFT SERIAL NUMBER

FAA REGISTRATION / OTHER REGISTRATION

REMOTE ID IDENTIFIER (AS APPLICABLE)

OWNER / ORGANIZATION

AIRCRAFT TIME (MANUAL, IF TRACKED)

DATE OF TIME ENTRY

Manufacturer manuals / maintenance references / document location

Battery, payload, and other component identifiers used with this aircraft

Inspection or service intervals from manufacturer / operation procedures

Use a new service-entry sheet for each inspection, repair, update, or finding. Keep supporting documents and the next action connected to the aircraft or identified component.

Follow aircraft and equipment manufacturer instructions. This log is a documentation aid, not an approved maintenance program. Aircraft condition responsibility: 14 CFR 107.15.

Aircraft service entry

Repeat this page for each service event. Record findings and the follow-up action.

AIRCRAFT / ASSET ID

DATE / AIRCRAFT TIME IF TRACKED

COMPONENT / BATTERY / PAYLOAD ID

RELATED MISSION / INCIDENT NUMBER

WORK PERFORMED BY

REFERENCE / WORK ORDER NUMBER

Observed condition / reason for inspection or service

Inspection, work performed, repair, replacement, or update

Parts / serial numbers / manufacturer references / attachments

NEXT ACTION / DUE DATE OR USAGE INTERVAL

STATUS / RESTRICTIONS / REVIEW NOTES
